Overview

Detail-oriented Full Stack Web Developer with hands-on experience building responsive, user-friendly web and mobile applications using React Native, TypeScript, and modern technologies. Proven ability to develop production-ready features through Work Integrated Learning and personal projects. Seeking an entry-level position to contribute technical expertise and grow in a collaborative environment

Skills

Languages & Frameworks: HTML5, CSS3, JavaScript, TypeScript, React, React Native, Next.js
Back-End & Databases: PostgreSQL, Supabase, Node.js, Ruby on Rails
Tools & Platforms: Git, GitHub, Expo (Expo Go), VS Code
Soft Skills: Problem-solving, Communication, Team Collaboration, Attention to Detail

Experience

Full Stack Developer (WIL)

ACE Project Space RRC Polytech
Jan 2026 - May 2026 | Winnipeg, MB

- Designed and implemented mobile application features using React Native, TypeScript, Expo (Expo Go), Node.js and Supabase in a production environment
 - Built and integrated RESTful APIs to enable dynamic, data-driven features including authentication and real-time updates
 - Collaborated in an Agile team with designers and backend developers to deliver production-ready features
 - Utilized Expo tools for streamlined development workflows, testing, and debugging processes
 - Optimized application performance by improving state management and reducing unnecessary re-renders
-

Projects

Portfolio Website

Apr 2026 - May 2026

- Designed and developed a fully responsive portfolio website using Next.js, TypeScript, React, and CSS Modules, implementing a scalable and consistent design system
- Built reusable and interactive UI components to enhance user engagement and maintainability
- Implemented features including dark mode, scroll-based navigation, and active section tracking
- Deployed on Vercel with CI/CD integration through GitHub for automated builds and continuous deployment

Yae Publishing House

Nov 2025 - Dec 2025

- Designed and developed an e-commerce web application using Ruby on Rails to manage book listings and transactions
- Integrated secure payment processing using Stripe API, enabling seamless checkout and functionality
- Built an administrative dashboard to manage inventory, update listings, and monitor site activity
- Structured backend logic and database models to support scalable data management and efficient queries

Teyvat Archives

Nov 2025

- Developed a data-driven web application using Ruby on Rails to manage and display character data

- Integrated CSV data sources and external APIs to aggregate and normalize structured information
- Designed responsive user interfaces to ensure consistent experience across desktop and mobile devices
- Improved application performance through optimized queries and efficient data processing

GreatPro’s Bookstore Website

Apr 2025 - May 2025

- Designed and developed a responsive bookstore with HTML5, CSS3 and JavaScript, improving accessibility and navigation
 - Enhanced user experience by optimizing layout and interaction flow, reducing lookup time by 60%
 - Implemented responsive layouts using CSS Flexbox and Grid, ensuring consistent experience across mobile and desktop devices
 - Improved accessibility by applying semantic HTML practices, enhancing structure and usability
-

Education

Diploma in Full Stack Web Development

Red River College Polytechnic

Jan 2025 - May 2026

Winnipeg, MB
